

# The Home Screen - Localized

The localized home screen is the default screen once you've localized to a particular store location. It adjusts functions and features to utilize the local store to provide location specific details. You can view inventory, shipments to the store, tasks assigned to the store, time spent inside the store and much more.

## Tasks

Clicking on tasks will bring you to the open tasks screen. From here you can complete tasks, answer task questions and more. Click here to learn more: [Store Tasks](#)

## Inventory

Clicking on inventory will allow you to search, sort filter and ultimately select items to view and change their inventory if necessary. Click here to learn more: [Mobile Inventory](#)

## Time Card

Clicking on the time card will show you your cumulated hours and mileage for the current day, the prior day and your pay period totals. To learn more click here: [Time Card - Localized](#)
