

Using Avantalytics' custom regions feature to create sales rep regions.

Looking for some inspiration for working with Custom Regions?

We teach you how to set up custom geographic regions to follow employees like your sales reps and regional managers in this week's Avantalytics tutorial. Easily set up insight panels, run reports and set up WebQueries in Excel. The benefit of creating rep regions is that you can change the stores assigned to each rep without breaking any insight panels or reports. Set up regions without worry. Click on the link below to learn how.
