

Task Response Metrics

Overview

The task response metrics insight panel is a great tool to monitor the details of tasks directly from a view. Through the combination of a task completion map insight panel, the task completion graph and this panel, you can easily monitor the status of store initiatives and share these results with others.

Anatomy of Task Response Metrics Panels

The image displays two panels illustrating the anatomy of Task Response Metrics. Both panels show survey results for the question "Was the super center watered?".

Top Panel (Pie Chart): A pie chart showing the distribution of responses. The legend indicates "Yes" (blue) and "No" (black). The "Yes" slice represents approximately 75% of the responses, while the "No" slice represents approximately 25%.

Bottom Panel (Bar Chart): A bar chart showing the number of responses for each category. The Y-axis is labeled "Values" and ranges from 0 to 25. The X-axis shows "Yes" and "No". The "Yes" bar has a value of approximately 23, and the "No" bar has a value of approximately 8. The legend indicates "Responses" (blue).

Both panels include a dropdown menu at the bottom with the text "Was the super center watered?".

Annotations for both panels include:

- REFRESH PANEL
- SETTINGS GEAR
- HELP/INFO
- CLOSE PANEL
