

# Multi-Period Sales, Inventory & Shipments By Store (124)

## Overview

This report allows you to choose several time periods to view year-over-year sales along with current inventory comparisons, shipments and on order in a single report at store location level. This report is very useful as a webquery as it can provide the equivalent data of multiple reports in a single request. This report allows drill-down capability to store item-level details.

Multi-Period Sales, Inventory & Shipments By Store - Home Depot
